

Principles of Good Stewardship

I Pledge! to keep the rivers and creeks in Auburn healthy and I will be a good steward of the environment for my future, my family's and all the living creatures who live in our community.

- ◆ I don't pour cooking fat, oil and grease (FOG) down the sink drain. I collect it in a container and throw it away with my solid waste.
- ◆ I will recycle whatever I can and reuse items whenever possible.
- ◆ I will remove all banned chemicals and pesticides from my home and will take them to a hazardous waste collection facility for proper disposal.
- ◆ I will take unused, outdated or leftover chemicals, pesticides and other hazardous waste to a licensed hazardous waste collection facility like the Western Placer Waste Management Authority.
- ◆ I will not pour chemicals, cleaners or any other items into the storm drains, sink drains or toilets
- ◆ I will pay special attention to automotive products that sometimes mistakenly flow into the gutter and storm drains and make sure they are recycled or treated as hazardous waste.
- ◆ I will make sure all medications are safely stored and I will treat them like hazardous waste. I will not pour them into the toilet, down the sink or put them in the trash. I will take them to a hazardous waste collection facility or save them for the City of Auburn's annual medication collection event.
